

Rosoboronexport to Bring Over 270 Pieces of Equipment to Army-2016

Moscow, September 5, 2016
Press release

Rosoboronexport – Rostec’s member – will display advanced equipment, manufactured for export, at the Army-2016 international military&technical forum.

“Army-2016 offers a convenient venue for demonstrating every capability of Russia’s Defense Industrial Complex (DIC) to Rosoboronexport’s traditional and potential partners. The special arms exporter expects to receive 50-plus delegations from all over the world. Many of them are led by ministers of defense and chiefs of services,” said Rosoboronexport’s Deputy Director General Sergey Goreslavsky, who will head the delegation at the event.

Rosoboronexport’s brass plan to hold talks with foreign delegations and businessmen from over 40 countries of Europe, Asia, Latin America, Africa, as well as CIS states. The meetings will be arranged in the company’s negotiation suite and at forum’s sites.

Rosoboronexport is the Army-2016 general sponsor. It has arranged its display in a prestigious part of the pavilion next to the Russian MoD sites. There will be equipment for all services with several displays complete with interactive augmented reality technologies. This will particularly be used to demonstrate the Su-35 super maneuverable multirole fighter, Mi-35M versatile helicopter gunship with troop carrying capabilities, and Pantsir-S1 AA gun-missile system. Though the actual spotlight will be on counter-terrorism and efforts will be taken to promote to foreign markets Rosoboronexport’s new product, i.e. armament and equipment providing capabilities for setting comprehensive protection of population, cities, and key installations against plausible threats, and fighting large terrorist groups.

“Rosoboronexport will bring over 270 pieces of military equipment to the exhibition. We are also going to put into action a new exhibition technology, developed by the company’s specialists, namely a touch screen terminal integrated into a network of demonstration displays, capable of capturing pictures of physical models and providing on-line catalogs. That is how we will demonstrate the T-90 tank, TOR-M2E SAM system, Project 636 submarine, Yak-130 combat trainer aircraft, and Ka-52 scout attack helicopter,” Sergey Goreslavsky continued.

Rosoboronexport is the only state-owned arms trade company in the Russian Federation authorized to export the full range of military and dual-purpose products, technologies and services. It is a subsidiary of the Rostec Corporation. Founded on 4 November, 2000, now Rosoboronexport is one of the leading world arms exporters to the international market. Its share in Russia's military exports exceeds 85 percent. Rosoboronexport cooperates with more than 700 enterprises and organizations in the Russian defence industrial complex. Russia maintains military technical cooperation with more than 70 countries around the world.

Rostec State Corporation is a Russian corporation founded in 2007 to promote the development, production, and export of high-tech industrial products for civil and military purposes. It is comprised of more than 700 organizations, whereof 9 holding companies presently operate in the military-industrial complex, 6 organizations are in civilian industries, and 32 are direct control organizations. Rostec's portfolio includes famous brands such as AVTOVAZ, KAMAZ, Kalashnikov Concern, Russian Helicopters, VSMPO-AVISMA, etc. Rostec companies are located in 60 federal subjects of the Russian Federation and supply products to the markets of over 70 countries. In 2015, Rostec's consolidated revenues topped 1,140 billion rubles. The corporation's average wage in 2015 was 41,000 rubles, and tax payments to budgets of all levels exceeded 160 billion rubles. According to the new Rostec strategy, the main objective of the corporation is to provide Russia with a technological advantage on highly competitive global markets. The planned investment volume for development through 2025 is 4.3 trillion rubles.
